VERDANT
SUSTAINABLE LIVING

Comprehensive Tri-Fold Print Production Specifications & Detailed Product Micro-Copy

SIDE 1: EXTERIOR PANELS (FLAP, BACK COVER, FRONT COVER)

PANEL 1: INSIDE FLAP	PANEL 2: BACK COVER	PANEL 3: FRONT COVER
LEFT PANEL (Inside Flap — Our Journey) **The Verdant Genesis:** What began as an architectural experiment in closed-loop design has grown into a blueprint for modern living. We believe that human environments shouldn't exist at the expense of the natural world. Every line we draw, every material we source, and every structure we build is designed to honor the delicate balance of our planet. • **100% Ethical Supply Chain:** Every raw component is traced directly back to its source, ensuring fair labor practices and regenerative harvesting. • **Zero-Waste Operations:** Our manufacturing facilities run on localized solar grids and divert 100% of production scrap back into the lifecycle. • **Responsible Sourcing:** We actively partner with localized forestry efforts to plant more than we harvest.	**MIDDLE PANEL (Back Cover — Get In Touch)** **Join the Movement:** Your space is an extension of your footprint. Let’s collaborate to build something that lasts for generations. **Corporate Headquarters:** Verdant: Sustainable Living HQ 100 Eco-Innovation Way, Suite 400 Portland, OR 97201 **Digital & Social Community:** • **Web:** www.verdantsustainable.live • **Email:** solutions@verdantsustainable.live • **Community:** @VerdantLiving [IG / LN / X]	**RIGHT PANEL (Front Cover — Main Face)** **[VISUAL DESIGN LAYOUT PROMPT]** *An exact multi-colored geometric recreation of the intersecting Verdant brand circles. The geometry features overlapping translucent layers of forest green, muted olive, and deep earth terracotta to signify interconnected ecosystems. Minimalist white space border.* **ELEVATE YOUR ENVIRONMENT.** **Verdant: Sustainable Living**

SIDE 2: INTERIOR SPREAD (FULL THREE-PANEL LAYOUT VIEW)

PANEL 1: THE BRAND PROMISE	PANEL 2: PRODUCT FEATURES	PANEL 3: DESIGN INTEGRITY
LEFT PANEL (The Brand Promise) **Absolute Transparency:** We reject greenwashing. Every material safety data sheet (MSDS), supply chain log, and carbon footprint analysis for our products is open-source and publicly accessible. **Toxic-Free Architectural Standards:** We design for internal wellness as much as global ecology. Our structural components are guaranteed completely free of volatile organic compounds (VOCs), formaldehydes, and synthetic fire retardants. Breathe easy knowing your indoor air quality is uncompromised. **Ecological Stewardship:** We don't just aim to reduce harm—we design to heal. A fixed percentage of all revenue goes directly toward restoring degraded local biomes and funding urban reforestation initiatives.	**MIDDLE PANEL (Product Text Details)** **Material Architecture & Engineering:** • **Certified Reclaimed Timber Frames:** Structurally graded lumber salvaged from historical local infrastructure, diverted entirely from landfills and processed to look timeless. • **Organic Plant Oils & Finishes:** Surface protections formulated entirely from raw linseed, tung oil, and natural beeswax. Zero petro-chemicals, zero toxic off-gassing. • **Sustainable Material Compositions:** Insulation and acoustic panels engineered using rapidly renewable hemp fibers, agricultural byproducts, and mycelium matrices.	**RIGHT PANEL (Design Integrity)** **Structural Circularity:** Every component we manufacture is engineered with **Design for Disassembly (DfD)** principles. We do not use permanent multi-material chemical bonding agents. When a product reaches the end of its useful life, it can be easily separated by a consumer into raw elements for localized recycling or clean composting. **End-of-Life Component Breakdown:** • Timber Elements: 100% Biodegradable / Clean Fuel Source • Metal Fasteners: 100% Infinitely Recyclable Architectural Steel • Textiles & Foams: 100% Compostable Industrial Organic Cotton *“Design responsibility means acknowledging that 'away' does not exist. Everything we construct must have a beautiful home to return to when its time with us is done.”*
